## **Bicycle Registration Program**

for Cochran Residents

Common locations of bike serial numbers

If your bike is stolen, is there any hope you can get it back?

Yes, but only if you make your bike unique by following these steps.

1. Every bicycle has a serial number displayed on the frame. Make sure you record that number in a safe place.
2. Put some kind of indelible property mark on your bike that proves you are its owner.
3. Take pictures of your bike and its marks. Those images will be useful to the police and expedite the return of your bike.
4. Complete the registration form on the reverse side of this flyer and turn it in to the police department.

Our mission with this free program for residents of Cochran is two-fold: Reduce the incidence of bicycle theft in our town and expedite the return of recovered bikes to their owners. Need more information?
